

EXERCISE 7C

1 State the size of the lettered angles in each diagram.

2 State the size of the lettered angles in each situation.

- 3 Two angles whose sum is 180° and which form a straight line are called **supplementary angles**. Write down all the pairs of angles in the diagram that are supplementary.

- 4 State the size of the lettered angles in these diagrams.

- 5 Calculate the values of x and y in these diagrams.

- 6 Calculate the values of x and y in these situations.

- 7 Redraw these diagrams, labelling each angle with its actual value.
